Quick start guide

Adding assessment templates from SIMS

Adding assessment templates to Provision Map

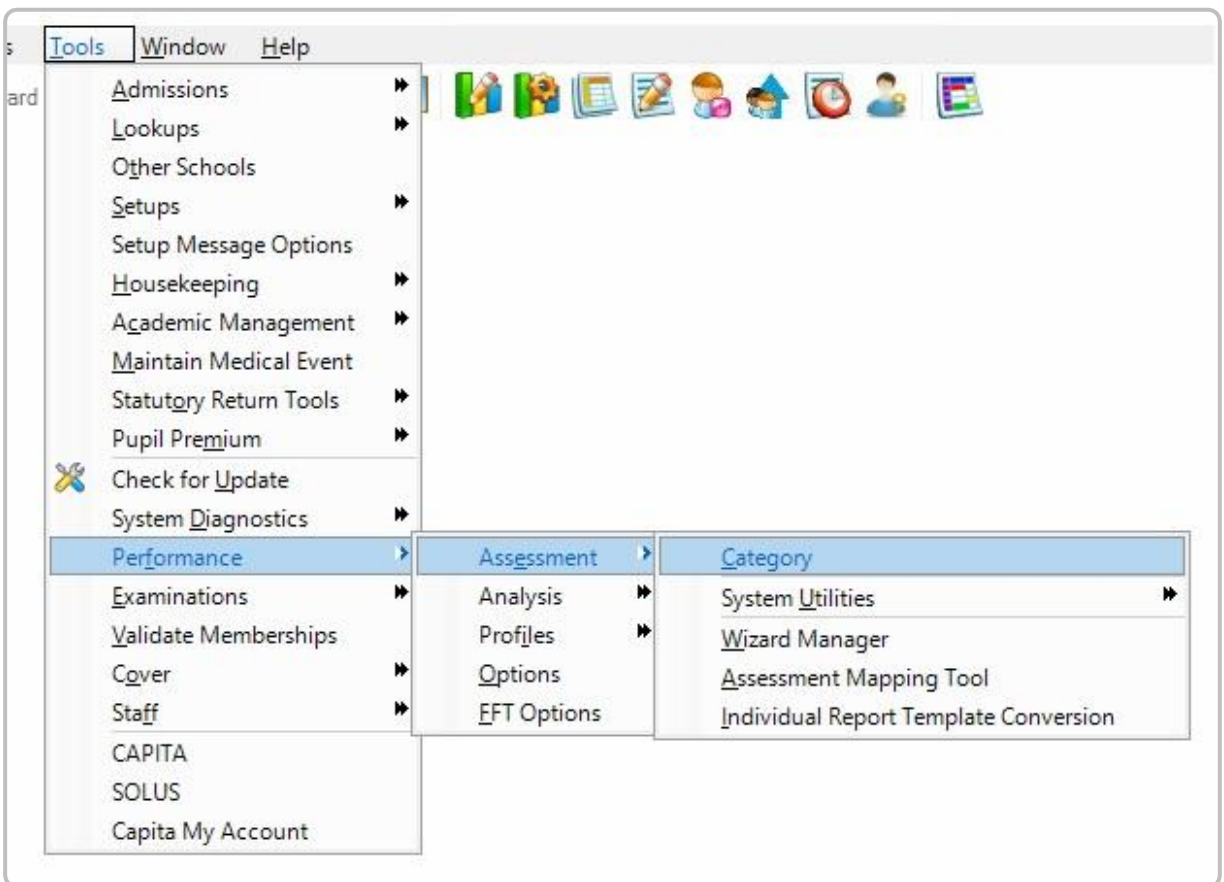

If you wish to include custom templates created in SIMS, the templates need to be member of a sub category called provision-maps (with Wonde as the main category).

Main Category = [Wonde](#)

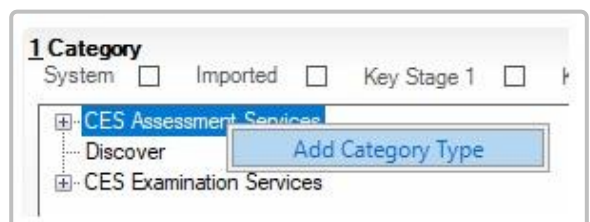

Sub Category = [provision-maps](#)

This quick start guide demonstrates how to create the required categories and add templates to them.

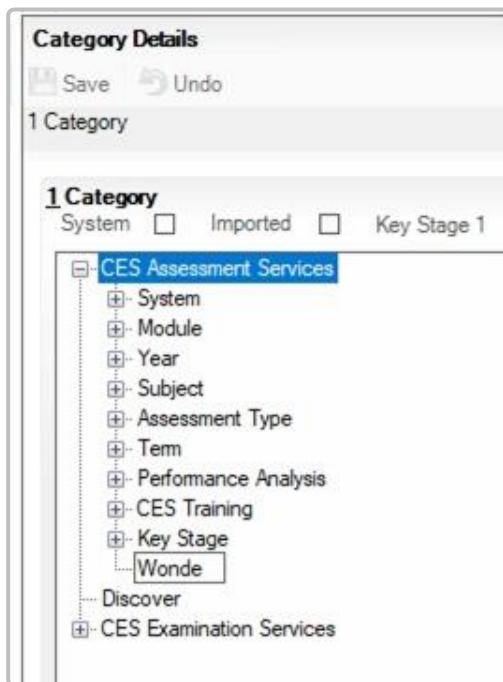

1. In SIMS net, navigate to [Tools](#) > [Performance](#) > [Assessment](#) > [Category](#)

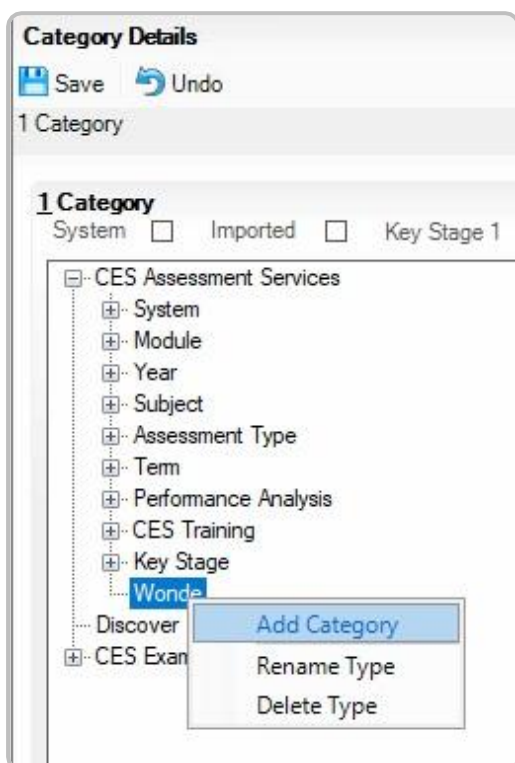

2. Right click on [CES Assessment Services](#) and click [Add Category Type](#).

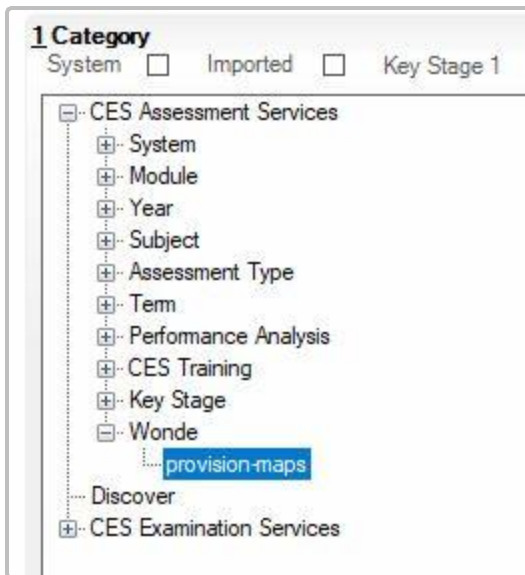

3. Enter **Wonde** as the name of the new category type.

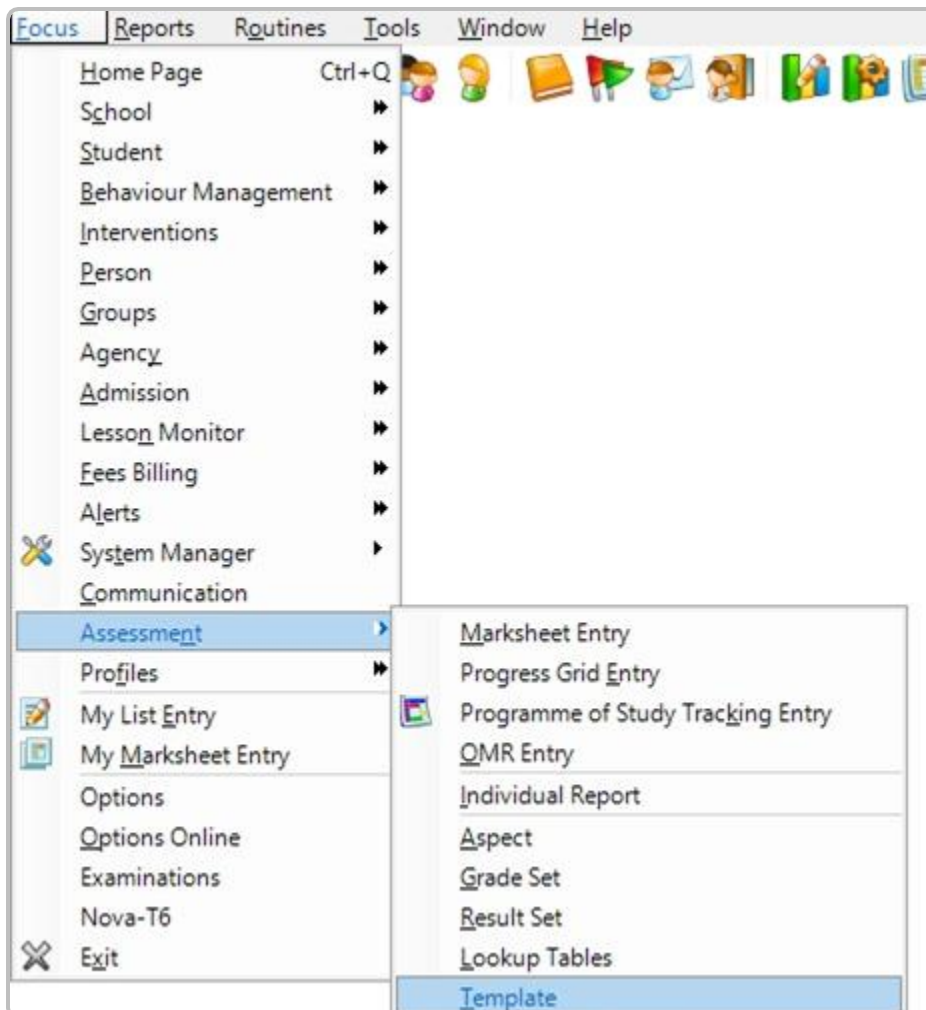

4. Right click on the **Wonde** category type and click on the **Add Category** option.

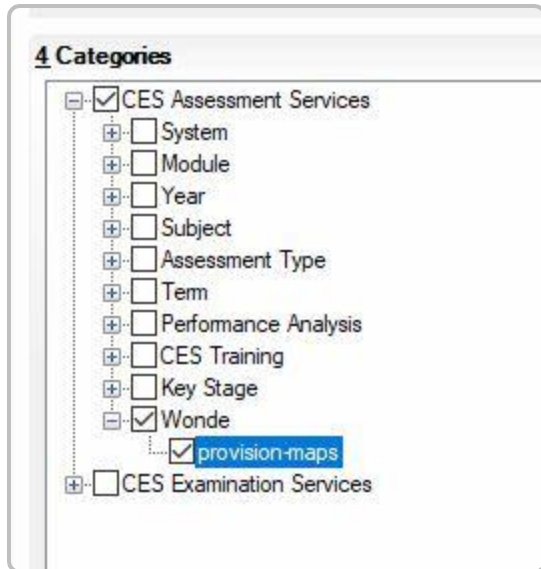

5. Enter [provision-maps](#) as the name of the sub category type.

6. Add the templates of your choice to the [provision-maps](#) category (Focus > Assessment > Template).

7. Once you have double clicked on the template you would like imported to Provision Map, locate the [provision-maps](#) category and tick it, then click on the [Save](#) icon.

Please note: Provision Map will only read aspects where [data](#) is present from the template.

Newly added templates will not appear in Provision Map until the next time Wonde extracts information from SIMS. Usually this takes place during [weeknights](#).
